New Mexico Operations
P. O. Box 638
Grants, New Mexico 87020

Dear Mr. Lynn:

Your August 14, 1980, proposal to modify the P-10 Mine, Pueblo of Laguna Uranium Lease 4, to include underground mining of the P-13 ore reserves has been reviewed. The Pueblo of Laguna and Bureau of Indian Affairs have recommended approval of the modification.

Accordingly, the P-13 modification of the P-10 Mine is hereby approved subject to the following conditions:

1. The P-13 mining operations will be conducted in compliance with all applicable conditions and requirements of the approval for the P-10 Mine.
2. Four additional survey points will be installed at the northwest (one), northeast (one), and southeast (two) ends of the subsidence monitoring system according to the enclosed map. Subsidence monitoring will be conducted according to the requirements for the P-10 Mine.
3. Abandonment and reclamation procedures for the P-13 mining operations will be determined in the approval of the September 11, 1980, Reclamation Plan for the Jackpile-Paguate Uranium Mine.

If you have any questions about this approval, please contact this office.

Sincerely yours,

(ORIG. SGD.) DALE C. JONES
